

Pro Rail Services

RAILWAY DRAINAGE SERVICES

Pro Rail Services are a highly experienced Railway Drainage Contractor, who operate across all Network Rail routes.

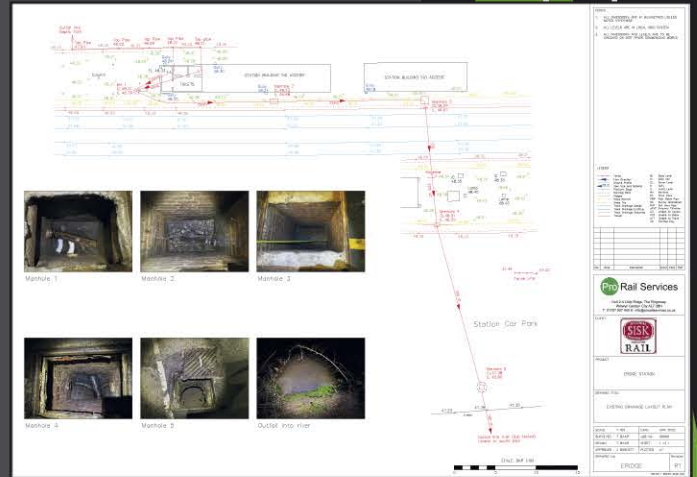

Pro Rail Services

RAILWAY DRAINAGE SERVICES

We specialise in:

- **Drainage Surveys** - Topographical and CCTV (drainage systems) to enable problem solving / design
- **Design Services** - we undertake a number of drainage design services for Tier 1 Contractors and various train operating companies
- **Stations** - we regularly survey and undertake drainage clearance services at a number of Stations, the biggest being Euston Station on LNW South
- **Sidings & Depots Drainage Projects** - we have been involved in both minor and major works schemes for the replacement & construction of new sidings, walkways, drainage systems
- **Major Drainage Installation** - full D&B Capability for all types of drainage schemes such as, track drainage, earthworks, structures (culverts / uTXs), klargester tank installations for new carriage wash systems
- **Permanent Way Support** - Track Drainage replacement in Depots and Sidings on all Network Rail routes
- **On Track Plant** - we retain our own fleet of On Track Jetting and Suction Units, together with our own POS Licence (Network Rail)
