

Pro Rail Services

STRUCTURAL EXAMINATION SERVICES

Pro Rail Services Ltd. is a Railway civil engineering contractor who execute Railway Civil Engineering contracts on Network Rail infrastructure. Using our specialist teams Pro Rail Services are able to achieve all types of structural examinations & inspections.

Pro Rail Services provide experienced engineers capable of investigating potential structural problems and providing remedial solutions. Our highly skilled examiners use an array of specialist access equipment and are able to inspect and examine all structures to ascertain any defects in brickwork, mortar, steelwork or concrete elements of the structures and are able to provide a detailed engineering and Inspection report which plays a vital role in evaluating structural maintenance requirements and inspection frequency.

Pro Rail Services

Pro Rail Services are pleased to offer an extensive range of services and can provide:

- Fully Qualified STE/02, STE/04 & STE/07 Examiners
- Structural Engineers
- Confined Space Examinations
- IPAF for Mechanical Elevated Working Platforms
- RRV mounted inspections
- PASMA and IRATA trained Operatives

Our examiners are assessed in accordance with Network Rail Standards and our enthusiastic examination teams are perfectly able to examine a variety of structures, not limited to:

- Bridges
- Retaining Walls
- Tunnels
- Canopies
- Viaducts
- Gantries
- Culverts
- Masts

Whether working on a schedule or emergency call out, **Pro Rail Services** are able to provide a turnkey service with our internal possession planners, safety critical staff and examiners available seven days a week.

Pro Rail Services are also readily available to provide highly skilled and trained vegetation management teams to carry out the management and removal of lineside vegetation to allow for safe access and clear routes to structures. With our own fleet of specialist OTP and vegetation machinery we are able to maintain lineside vegetation by use of our long reach mulchers, flails and hybrid MEWPs.

◦ Examinations:

- Headwall and Retaining Wall Examinations
- Culvert Bore Surveys
- External Structure Features
- Ecology Surveys
- CCTV Survey and Wincan Software Reporting
- Integrated CCTV and Topo Survey Reports
- Lineside Vegetation and Boundary Surveys
- Bridges and Viaducts
- Drone Examinations with Qualified Pilots
- Rapid Response Emergency Call Outs

◦ Equipment:

- Internal Specialist OTP Machinery
- Long Reach RRV Mulcher, Flail, Log Grabber
- Hybrid MEWP
- High Pressure Jetting Unit
- Vacuum Tanker and Recycler Unit
- Confined Space Equipment
- Rope Access for Manhole Entry
- Self-Propelled CCTV Crawler Unit
- Drone

◦ Other Services Available:

- Clearance of Silt, Debris and Water
- Vegetation Removal and Management
- Ditch Clearance re-grading
- UV Lining
- Provision of OTP
- Civils Works
- 24/7 Response Capability
- Possession and Isolation Planning
- Flood Mitigating schemes
