Pro Energy Services

Civil Engineering for a Cleaner World

POWERING UK'S RENEWABLE TRANSITION

Pro Energy Services is the renewable and civil engineering division of **Pro Rail Services**, delivering sustainable infrastructure for solar, wind, BESS, EV and hydrogen projects nationwide.

Backed by 25+ years of safety-critical infrastructure delivery and a 220-strong directly employed workforce, we combine technical excellence with an ESG-driven culture to accelerate the UK's journey to Net Zero.

Our mission is to build the civil foundations that power the UK's renewable future safely, efficiently and responsibly.

OUR CAPABILITIES INCLUDE:

- Nuclear & Small Modular Reactor civils
- Solar and BESS balance-of-plant civils
- Onshore wind access and foundations
- EV charging & sub-station civils
- Hydrogen & grid connection infrastructure
- Drainage, trenching and reinstatement

Pro Energy Services
ON TRACK TO GO GREEN

Pro Energy Services

Civil Engineering
for a Cleaner World

RENEWABLE ENERGY CAPABILITIES

Nuclear & Small Modular Reactor

- Self-delivered civils, drainage and groundworks for enabling and new build projects
- Small Modular Reactor infrastructure and modular installation support
- Proven expertise in high-security environments and site access management

Solar Energy

- Access roads, drainage and ducting
- Inverter & transformer bases and piling support
- Sub-station civils and cable trenching
- Biodiversity-led reinstatement

Battery Energy Storage (BESS)

- Slab & containment bunds for containerised units
- Cable routes, ducting and draw pits
- Compound & trackway construction
- Integrated civils for grid connection

Onshore Wind

- Crane pads & hardstandings
- Trenching and duct installation
- Foundation civils and access upgrades
- Environmental control and reinstatement

Hydrogen, Grid & EV

- Trenching, containment and ducting
- Sub-station & charging base civils
- Access and compound formation
- Haulage and plant logistics (FORS Silver)

SPECIALIST CIVIL ENGINEERING FOR CLEAN ENERGY PROJECTS

Supporting Services - Topo & utility surveys, ground investigation, temporary works, drainage CCTV & vegetation clearance

Delivery Model - Survey, design, build & maintain.
Fully self-delivered with in-house plant and logistics.

Unit 2-4 Little Ridge | The Ridgeway | Welwyn Garden City | Hertfordshire | AL7 2BH

Pro Energy Services

Civil Engineering
for a Cleaner World

SUSTAINABILITY & SOCIAL VALUES

Environmental Commitment

- ISO 14001 EMS & zero environmental contraventions
- 97%+ waste diversion, circular-economy materials
- HVO-fuelled plant & Euro VI haulage fleet
- Battery-powered MEWPs & low-carbon procurement
- Scope 1-3 carbon tracking & habitat-sensitive works

Safety & Quality

- ISO 9001 & 45001 certified
- RISQS, Achilles & Constructionline Gold
- Zero RIDDORs - rail-grade safety standards
- Digital QA and inspection reporting

People & Community

- 220+ employed workforce, apprenticeships & upskilling
- Inclusive leadership & wellbeing culture
- Mental health first aiders and "Time to Talk" sessions
- Local STEM outreach & AquaAid clean-water support
- Rally sponsorship, inspiring young engineers

ENGINEERING A CLEANER & FAIRER FUTURE

OUR CREDENTIALS & PARTNERSHIPS

Why Choose Pro Energy Services

- **Proven delivery** across solar, wind, BESS, EV and hydrogen projects nationwide
- **Self-delivered** civils using our own plant, haulage and skilled workforce
- **Rail-grade** safety, planning and compliance applied to the energy environment
- **Collaborative approach** from design to delivery, reducing risk and interfaces
- **ESG-driven culture** sustainability and social value embedded in every project
- **Scalable capacity** from enabling works to multi-million pound BoP civils
- **National coverage** with rapid mobilisation capability

Accreditations & Compliance

- **ISO 9001, 14001 & 45001** certified
- **Achilles UVDB Silver, Constructionline Gold& RISQS Verified**
- **FORS Silver** logistics fleet
- **Zero RIDDORs** exceptional safety record
- **Digital QA & reporting** for full traceability

Clients & Partners

Trusted by leading Tier 1 & Tier 2 contractors, developers and DNOs supporting the UK's clean-energy transition.

SUPPORTING EVERY STAGE OF RENEWABLE ENERGY DELIVERY

- **FROM TRENCH TO TRANSFORMER...**
